CANADIAN NURSES ASSOCIATION ACCREDITED 14 CREDITS ACCREDITATION

United Arab Emirates

TARGET AUDIENCE

Healthcare Professionals, RN, PN, Physical Therapists

Ostomy Care and Management (OCM) is a multi-specialty course (Blended Learning) in the United Arab Emirates, in collaboration with **International Interprofessional Wound Care Group (IIWCG)**. We believe thousands of Wound and Ostomy Clinicians (WOCs) and other clinicians who work with Ostomy patients or are considering Ostomy as a career direction, will greatly benefit from the new OCM program. To meet the need for specialized clinicians dedicated to the treatment and prevention of Ostomy and stoma complications. The OCM course is open to registered nurses and senior support workers working in hospital or community in either the public or private sectors in the Middle East, who care for patients with a stoma and who wish to acquire greater knowledge and skills in stoma care.

PROFESSIONAL DEVELOPMENT

Upon successful completion of the Ostomy Care and Management candidates can apply learning into Practice.

WCET — A world of expert professional nursing care for people with ostomy, wound or continence needs.™

Official Journal

Organized By:

IIWCG

Registration Fee: AED 5,000

+ 5 % VAT

LEARNING OBJECTIVES

- Assess and critically review ostomy and continence care literature.
- Reflect on current practice and incorporate best evidence.
- Improve interprofessional collaboration and patient-centered care.
- Demonstrate safe and effective technical skills in ostomy and continence management.
- To Understand the management of inflammatory bowel disease that can lead to a fecal stoma or urinary diversion.
- Demonstrate preoperative preparation of a patient undergoing a fecal and/or urinary diversion including stoma site marking.
- Distinguish specific ostomy care needs when educating patients and caregivers.
- Analyze specific management issues related to fecal and urinary diversions
- Assess the needs of special populations and incorporate identified needs into the Ostomy plan of care
- Distinguish between peristomal skin conditions and select the associated management strategies.
- Develop and implement an individualized management plan for the fistula patient that provides for containment of drainage and odour and protection of the peri-fistular skin.

ELIGIBILITY REQUIREMENTS

The OCM is designed and intended solely for licensed health care professionals. Applicants for the OCM must meet all of the following criteria:

1. Active license as a Registered Nurse, Licensed Practical- Vocational Nurse, Nurse Practitioner, Physical Therapist, Physical Therapist Assistant, Occupational Therapist
2. Passport / ID
3. Complete Registration Form
